

“On Demand” Hosting

Also known as Software-as-a-Service (SaaS), Noguska LLC offers clients all the benefits of online hosting for their NolaPro application in a secure environment.

Benefits of using our on demand service include:

- Secured site authentication (https://) with access control for every user
- Nightly backups of your encrypted data to our private offsite location
- No installation hassle
- No hardware to maintain or configure (IT free)
- Seamless, automatic upgrades with every new release
- Quicker support since we can directly access your site
- Your site is typically “live” within 1 business day
- 99% uptime on our professionally hosted servers

Our affordable savings plans are as follows:

- \$16.⁶⁷ per month if subscribed annually (\$200/yr.)
- \$20.⁰⁰ per month if subscribed quarterly (\$60/qtr.)
- \$25.⁰⁰ per month if subscribed monthly
- Optional—database importing and/or restoration is available upon request for a small \$79 fee per incident (note that data or tables that have been substantially altered may be subject to additional costs)

Note that since we have been hosting NolaPro on the web back in 2003, we have yet to suffer an unauthorized security breach or any permanent loss or compromising of customer data.
