

Language Translation

Whether using an official NolaPro community translation site or your own local installation, NolaPro provides a robust editing utility which allows translation into many languages.

- Choose Tools -> Language Editor
- Select your Language from the drop-down list
- Click “Show Advanced Options” to see this screen:

Language Editor

Select Your Language: English

Hide Advanced Options

(Only look for search terms in the pages selected below)

NolaPro Pages:
(Show B2B Pages)

- ALL
- ./action_addupdate.php
- ./adminachdownload.php
- ./adminachreport.php
- ./adminactivitymonitor.php
- ./adminapccgen.php
- ./adminapcctypeadd.php
- ./adminapcctypeupd.php

Additional Search Filters: Search Term Must Be In Internal Phrase
 Search Term Must Be In Definition

Show Page Matches: (Shows all pages a word or phrase appears on)

Show Only Blanks: (Returns only blank Definitions for your language)

Results Per Page: 25

Export Translation *Recreate Menu Get Definitions

- Check “Show only Blanks”
- Click “Get Definitions” and you’ll see a list of English words/phrases and a blank field for your language. Just fill these in and choose “save”.
- If you have translated NolaPro locally, full or partial, you can use the Export button to contribute them to the entire NolaPro community!
- All contributors receive a free copy of the full translation when finished.
